	Agenda Item	Discussion Points and Actions
1.		Deborah Harvey brought in plastic bottles and cut bamboo canes for today's activity. Children worked in partners to cut off the caps and bases of the plastic bottles. Once they had done this, children stuff the bamboo canes tightly into the bottles and thread string through to create a hook. Therefore creating a bee home. Children then hung these around at the trees located at the back of the field and check their pitfalls for mini-beasts. Learning another great way to reuse materials.
