

Our Curriculum : Summer Term topics

At Wood End Park Academy, we believe in having a curriculum that allows pupils to be aware of local and current issues.

We help children understand these issues, offer solutions and discuss how they can prevent or improve these in future.

Current Topics of Conversation:

Early Years (Reception)- What are the similarities and differences in our class community? How do we fit in?

Year 1- What do we have in the local community? How do we fit in?

Year 2- Why are the Royal family patrons to charities? What charitable acts could I do?

Year 3- Why is there poverty? What do we do to support people who live in poverty?

Year 4- How will the general election affect me? How will the Heathrow expansion affect my community?

Year 5- What local issues affect me? If I was the Mayor of Hayes, what would I do?

Year 6- If I was a monarch of England, what would be my policies and systems? How will Secondary school be different to Primary school? How will I fit in?
