

Wood End Park Academy

To Question is to Grow

Avril Littlechild

I first became a school governor at Wood End Park since 1996 when my own children were pupils here. Since then I have been a staff governor and a community governor and have seen many changes within the school. As well as working in the school I live locally, so have a vested interest the service we provide to our local community. As a parent of grown up children and a grandparent to 6, not only do I believe education is important and the means to a bright future, I also am committed to giving the best pastoral care to our students.
