

To Question is To Grow

Working in Partnership with Parents

Reception are launching a new reading challenge!

Every child will be challenged to learn **18 tricky** words and a template to record their progress in learning these words where he/she has to reach a castle!

These will be given to the children in groups of three and they will be asked to read these each week. We will track the children's progress and once they have completed the challenge they will receive a *special certificate* in assembly!

The words that children will be learning are 'phase 2 and 3' tricky words. These are words that cannot be sounded out but need to be learned by heart. They do not fit into the usual spelling patterns.

By learning these tricky words we know children will be able to read and write a greater variety of sentences.

Do help your child to get to their tricky word castle.
