

Speaking

You can help your child develop their speaking skills every day. Here are a few activities you can do with your children. Take a photo and put it on Tapestry!

On Your Way to School

- Discuss what you can see on your way to school.
- Talk about what your child might do at school today.
- Talk about what your child did yesterday at school.
- Talk about what you are going to do after school.
- Encourage your child to say good morning to as many teachers on the gate as they can.

At Home

- Cook with your child e.g. make a sandwich, make Rice Krispie cakes. Discuss what you are going to do to make them and how they tasted.
- Play board games as a family. Talk about who is winning and how it makes you feel.
- Go on an adventure hunt outdoors, make up stories of what could happen.
- Talk about how your day was and how your child's day at school was.
