

Wood End Park Academy

Parent Computing Class Feedback

Wood End Park Academy is always interested in parents' comments and feedback regarding the school. Here are some comments that parents have left for us!

At Wood End Park Academy, we run computing sessions for parents looking to improve their computing skills, parents looking to get back into work and to show how children's learning could be supported at home. This is what our parents think of our sessions;

'Love all the course'.

Elizabeth

'I like the course because now I know how to use computers and emails. I am very happy'.

Halima

'I like this course, it has improved a lot of my computing skills'.

Nisha

'I have learnt things I was unsure about. Helped me to be confident in helping my boys with their homework'.

Samantha

'My teacher was very helpful, they have taught me very well'.

Tirath
